

Familia Adelante

Program Overview

Familia Adelante is an evidence-based substance use prevention and intervention stress reduction program for at-risk Latino youth ages 10-14. This 12 week program strengthens ties between the child and his/her family, school, and peers. The curriculum is also offered in Spanish to address the needs of the families.

Why Choose Familia Adelante?

We can train your organization to implement Familia Adelante (FA) in your local community. Professional or para-professional staff can become certified in FA. FA has proven to:

- Increase academic performance among youth
- Improve school attendance
- Reduce substance abuse
- Reduce high risk behaviors
- Increase communication among family members
